

Annotation Guidelines

Question: what **gender** is encoded in the translated **sentence**?

- If an occupation, related adjective or related verb are in masculine, mark sentence as male.
- If any of those are in feminine, mark as female.
 - “Анна є **досвідченою** науковцем.” -> female (adjective is feminine)
 - “Бармен зателефонував мені сьогодні.” -> male (occupation and verb are masculine)
- If there is no occupation name, adjective, nor verb that could help identify the gender in the sentence, mark the sentence as none.
 - “Том погано продає.” -> none
 - “Я колись **працювала** кухарем.” -> female
 - “Кухня **зателефонував** мені сьогодні.” -> female (occupation name is wrong, though we can see that sentence gender is feminine)

Optional

- If the sentence is in russian, attempt to identify gender and add mark rus in OTHER column.
- If occupation name is missing in the sentence, add mark no occupation in OTHER column.
- If you want to leave a comment on a sentence, you can do so in the COMMENT column.
